

Important Announcement: Bimix/Trimix Package Size Change and Price Update

October 16, 2023

Dear Valued Customers,

We hope this message finds you well. At Moss Compounding Pharmacy, we are committed to providing you with the best products and services possible. We are writing to inform you about an important update regarding some of our compound products. These changes are due to new government regulations that are requiring all compounding pharmacies to implement more stringent changes in storage conditions, shorter shelf life of the preparation, and other quality control measures.

Effective October 16, 2023, we will be implementing changes to the package size of all our Bimix and Trimix compounds. We have carefully considered this decision to ensure that we continue to meet your needs and maintain the high standards of our products while also maintaining compliance within the new regulatory requirements.

Here are the key details of the **package size change**:

- All Bimix and Trimix will now be dispensed in 1mL increments

Here are the key details of the **storage and beyond-use-date changes**:

- All Bimix and Trimix vials are recommended to be stored in the Freezer for up to 45 days.
- Vials can be thawed in the Refrigerator, but the product is recommended to be used within 4 days after thawing.
- The new regulatory standards recommend discarding the vial after the dates listed above.

Here are the key details related to **pricing changes**:

- Pricing changes will go into effect to reflect the increase in supplies, labor, and quality control testing that will be required under these regulations. We will, however, be able to dispense smaller quantities per in order to minimize the amount of unused medication that may expire before being used. Please see table below for pricing/minimum order sizes for our most common strengths.

Price Listing (date 10/16/23)

Product	Price	Minimum Order Amount
Bimix Bimix DS Trimix 25mg/0.5mg/5mcg Trimix 30mg/0.5mg/10mcg Trimix DS Trimix DPhen	2mL=\$90 3mL = \$125 4mL = \$145 5mL = \$160	2mL
Trimix Super (all options)	2mL = \$100 3mL = \$141 4mL = \$162 5mL = \$180	2mL
Trimix Enhanced (all options)	2mL = \$106 3mL = \$149 4mL = \$171 5mL = \$190	2mL
Trimix with Atropine (all options)	2mL = \$129 3mL = \$180 4mL = \$207 5mL = \$230	2mL

If your specific product is not listed, please contact us for updated pricing information when requesting a refill.

We understand that price adjustments can be a concern for our valued customers, and we want to assure you that we have done our best to keep any increases as minimal as possible while still maintaining the quality and sustainability of our product.

As always, our commitment to providing the highest quality compounded products for your healthcare needs remains our top priority. If you have any questions or concerns about this package size change and price update, please do not hesitate to reach out to us. We will be more than happy to assist you and address any inquiries you may have.

We appreciate your continued support and loyalty to Moss Compounding Pharmacy. Thank you for choosing us as your trusted compounding pharmacy. We look forward to continuing to serve you.

Respectfully,

Bryan Ziegler, PharmD, MBA
