

## Collaborative Hormone Therapy Management Service

At Moss Compounding Pharmacy, our staff has completed additional training and continuously pursues the latest information in hormone therapy. We welcome the opportunity to utilize this knowledge and expertise to assist you with providing the best care possible to your patients in need of hormone therapy.

### Here's why we believe we can be of value to you and your patients:

- We can **help you manage these patients, which many times require considerable time and effort.**
- We have the ability to **assist with patient assessment and recommendations for drug therapy options.** This includes:
  - Gathering a patient history and symptom evaluation related to hormone therapy.
  - Providing instruction and supplies for saliva hormone testing.
  - Completing an assessment of hormone therapy issues and needs based on patient history, symptom presentation, and laboratory findings.
  - Preparing a hormone care plan and therapy recommendation.
  - Ongoing monitoring and follow up with patients.
  - Providing open communication and care documentation to prescribers.
- You and your patients will have access to a clinical pharmacist that has received the **Hormone Replacement Therapy (HRT) Specialist** designation from the Professional Compounding Centers of America (PCCA)---***the only pharmacist in the Pee Dee region holding this designation.***
- Our pharmacy is able to offer **all forms of hormone therapy options (manufactured and compounded)** and will work with prescribers and patients to identify the best option available.
- We compound with the **highest quality ingredients available in the industry.** All ingredients are purchased from an FDA approved supplier, complete the highest standards of quality testing, and are the most studied options for efficacy.
- No two patients are the same when it comes to hormone deficiency needs. We have the ability to **customize treatment options specific to each patient's unique needs.**

## Collaborative Hormone Therapy Management Service

We have multiple ways in which we can assist you:

Option A: Comprehensive Hormone Therapy Care

Option B: Follow up and Ongoing Monitoring for Hormone Therapy

Option C: Dispensing of Customized Hormone Therapy Prescriptions
